

News Release

DOCUFLOW-ESKER COLLABORATION FACILITATES STREAMLINED INVOICE APPROVAL PROCESS AT WAYMADE PLC

FOR IMMEDIATE RELEASE

Docuflow, a market leading workflow solutions provider and Government G-Cloud Supplier for "Cloud" accessed software, is pleased to announce a collaboration with Esker that has seen Waymade PLC implement a refined accounts payable (AP) solution.

The collaborative project with Esker, a pioneer in cloud computing and early adopter of AI-driven process automation solutions highlights the growing popularity of AP solutions and significance of this in the 21st century workplace.

Waymade PLC specialise in the licensing, sale and marketing of generic pharmaceutical products to retail pharmacies, hospitals and wholesalers. Prior to the Docuflow-Esker collaboration, Waymade PLC were manually coding the majority of their supplier invoices into Sage X3, with two staff members working in AP. The majority of invoices were received as PDF attachments and had to be manually printed, coded, approved and archived. The approvals process was undertaken via the company's internal mail which was both slow and manual.

As the company had recently expanded to two office locations, a more efficient approval process was the main driver for change. A predicted further increase in business also meant that the solution needed to be scalable to cope with future volumes.

Thanks to Docuflow's consultancy led engagement and Esker's AI-driven AP solution platform, Waymade PLC have achieved numerous benefits. These include faster invoice processing, lower invoice approval time with automated notifications and on-the-go approval, increased visibility across the entire Accounts Payable process and improved productivity of the AP team. By streamlining work processes, Waymade PLC have allowed staff members to spend more time on higher-value tasks who can also now work smarter.

Docuflow covers every aspect of the accounts process, from AP and AR to Sales Order Processing, purchasing and document delivery. To see how Docuflow can help you streamline your business processes, get in touch with us today.

Our services and solutions are supported by highly trained sales and service teams, to provide true end-to-end solutions.

About Waymade PLC

Vijay and Bhikhu Patel who together founded Waymade Plc, have seen it grow from a single chemist's shop in Essex into a pharmaceuticals company with a turnover in excess of £300m at its peak. Waymade PLC deals in the licensing, sale and marketing of generic pharmaceutical products under Sovereign Pharmaceutical brand to retail pharmacies, hospitals and wholesalers. A new company, Atnahs, formed in November 2013, manages in-licensing and the sale of branded pharmaceuticals in 27 countries. The group has ambitious plans to expand their product range and the territories in which they operate.

About Esker

Esker is a worldwide leader in AI-driven process automation software, helping financial and customer service departments digitally transform their procure-to-pay (P2P) and order-to-cash (O2C) cycles. Used by over 6,000 companies worldwide, Esker's solutions incorporate technologies like artificial intelligence (AI) to drive increased productivity, enhanced visibility, reduced fraud risk, and improved collaboration with customers, suppliers and internally. Esker operates in North America, Latin America, Europe and Asia Pacific with global headquarters in Lyon, France, and U.S. headquarters in Madison, Wisconsin.
